

UNITED STATES GOVERNMENT

memorandum

DATE: 18 OCT 1984

REPLY TO
ATTN OF: OS-1

U-2157/OS-1D

SUBJECT: Revision of DCID 1/20

Thru: ~~OS-1~~
TO: ~~OS-D~~ *OS-1*

Ref: SECOM memorandum D-246, 3 October 1984, subject as above.

OS-1 has reviewed the proposed changes to DCID 1/20 as outlined in referenced memorandum and concurs with the following stipulations:

CHANGE A: No change to original wording appears necessary. Terrorism is subsumed in the more broad term "hostile groups." It would be redundant to specify "terrorism" as proposed. The original wording referring to SCI-knowledgeable personnel is succinct and well-written.

CHANGE B: Concur.

CHANGE C: Concur with definition on terrorism. It would appear more appropriate to enlarge the scope of Defensive Security Briefings rather than add another type of briefing, i.e., antiterrorism. Recommend scope be changed as follows:

"d. Defensive Security Briefings. Defensive Security Briefings are formal advisories which alert traveling personnel to the potential for harassment, provocation, or entrapment. These briefings are based on actual experience when available, and include information on courses of action helpful in mitigating adverse security and personnel consequences, and provide passive and active measures which personnel should take to avoid becoming targets or inadvertent victims of terrorism."

CHANGE D: Concur.

CHANGE E: The suggested word insertions "an antiterrorism briefing" are not necessary in view of above DIA Change C comments. Remainder of the suggested paragraph change: "Consideration will be given ... a substantial risk of terrorist acts" should remain in the footnote to maintain clarity as an exception to the normal rule.

Chief, Counterintelligence
Division
